Memo

On the 12th of December there was a quarrel between some of the villagers of Kempinkote and some of the cartmen who being machinery, timber & ca for the mines. It arose because the cartmen, leaving the track newly made specially for the purpose, drove the carts in the adjoining fields and injured the standing crops. It would appear according to the villagers that they protested against the action of the cartmen, but the Cartmen complained of having been beaten by the villagers. The Amildar visited the place immediately afterwards and made enquiries in presence of Mr. Bullen, the resident manager and Superintendent. The statements of the cartmen were not confirmed. No hurt had been caused to anyone. But the cartmen had run the carts over the crops and injured them.

Subsequent to this incident there has been no collision of any kind betw

the villagers and the laborers employed by the mining Company, but amongst the native laborers themselves there have been drunken brawls but none of a serious nature.

A Constable was posted at the spot. Ever since operations commenced, to watch the place and bring information of anything unusual to the nearest station.

One more Constable was delegated shortly after. These two Constable remain there permanently and have no other work given to them. A Constable daily carries a chit initialed by Mr Bullen to his station. Latterly one more Constable who has passed out of Bangalore School and is literate is also stationed there.

But as the number of mining laborers is large, it is advisable that a Police station should at once be established for the preservation of the peace in the place and the Amildar has received orders to put up a small building and a cooking accommodation for Constable and the Officer. For the present an intelligent officer of the rank of a

Sub Inspector or a European Head Constable and 6 Constables and a Duffedar, picked men, will answer our requirements. The strength of the force may be increased, watching the development of the mining operations. A proposition statement is attached showing necessary details.

There is a toddy shop at the distance of a mile or a mile and a half. This shop has been now ordered to be closed as it was to a certain extent a facility to get drunk.

Even on the 16th of January 1894 referred to in Mr. Bullen's D.O. letter to Mr. Hagarty, the enquiry shows that there was nothing but a drunken brawl.
